

14th June 2021

To whomsoever it may concern.

This is to certify that **Mr Rohan Kulkarni** has effortlessly contributed to our program **GirlScript Summer of Code 2021** as an open-source contributor. They have worked diligently on different projects associated with our program and thus we are happy to bestow them with the title of Top Performer.

As an **open-source contributor** of our program, they had regularly raised issues, made commits, and created Pull Requests. Their dedication proved to be a great boon to projects that needed a high calibre in programming languages and modern technologies.

During the entire duration of the program, the project admins and the mentors found them to be highly efficient, enthusiastic, and upbeat about their contributions. They were open to constructive feedback about their PRs and concurrently improved their work.

We are very impressed by their work ethics and strongly recommend them for roles that require good technical knowledge, teamwork, communication skills, and responsibility.

We wish them the best in their future endeavours.

Anubha Maneshwar
Founding Director,
GirlScript Foundation
